Oguz Altan

oguzaltan148@gmail.com +4915204495391 Roermonder Str. 73 52072, Aachen
linkedin.com/in/oguzaltan github.com/oguzaltan Date of birth: 12.07.1997

Education

RWTH Aachen University Aachen, Germany
M.Sc. in Electrical and Computer Engineering; GPA: 2.2/1.0 *November 2020 – September 2023*
- Major: Systems and Automation
- DAAD Scholarship for Completing Studies, 2022
- *Relevant Courses:* Artificial Intelligence, Deep Learning, Big Data Analytics, Digital Image Processing, Robotics and Man-Machine Interaction I & II, Reinforcement Learning and Learning-Based Control

Bilkent University Ankara, Turkey
B.Sc. in Electrical and Electronics Engineering; GPA: 1.7/1.0 *September 2016 – June 2020*
- Scholarship of the Turkish Prime Ministry, 2016 - 2020
- *Relevant Courses:* Data Science, Neural Networks, Control Theory, Nonlinear Systems, Optimization in Engineering

Work Experience

Siemens AG Munich, Germany
Machine Learning Engineering Intern and Working Student *March 2022 – December 2022*
- Artificial Intelligence on Wire Arc Additive Manufacturing (WAAMAI) data analytics team
- Worked on anomaly detection using various machine algorithms and frameworks, data processing, process monitoring, automation software development, and edge computing with NVIDIA Jetson

Fraunhofer IIS | FAU Erlangen-Nürnberg Erlangen, Germany
Research and Engineering Intern *June 2019 – September 2019*
- Worked on the redesign of PCBs, programmed microcontrollers and the wireless embedded systems

TUBITAK Space Technologies Research Institute Ankara, Turkey
Research and Engineering Intern *June 2018 – July 2018*
- Worked on transmitting analog signals through a noisy medium and analog-to-digital signal conversion

Select Research & Projects

Tracking and Evasion using Co-Training with Context Knowledge
Master's Thesis, Grade: 1.3/1.0, Fraunhofer FKIE & RWTH Aachen University, 2023
- UAV trajectory optimization for precise target tracking in urban environments
- Designed and implemented multiagent deep reinforcement learning algorithms with game-theoretic co-training approach, urban layouts by procedural map generation and urban map image processing with deep learning

Mobile Robotics in Disaster Scenarios
Seminar Paper, Institute of Man-Machine Interaction at RWTH Aachen University, 2021
- Review article for the Seminar: Current Concepts and Trends in Robotics and Simulation Science

Accompanying Humans and Achieving Designated Tasks with Autonomous Mobile Robots (TAG-A-LONG-BOT)
Senior Year Project, Bilkent University, 2020
- Designed and implemented autonomous mobile land robots to track a designated moving human and avoid nearby obstacles by detecting and dodging them

Skills

Programming:	Python, MATLAB & Simulink, Java, LaTeX, Assembly, VHDL
Libraries:	PyTorch, TensorFlow, Gym, Ray, SciPy, Scikit-Learn, Pillow
Tools & Software :	Linux, Git, Docker, VS Code, EAGLE, MS Office
Languages:	English (Advanced), French (Advanced), German (Beginner), Turkish (Native)

Extracurricular Activities

- **IEEE Bilkent Student Branch Vice Chair:** Administrating and supervising technical activities, 2019 - 2020
- **IEEE Bilkent Student Branch Robotics and Automation Society (RAS) Coordinator:** Teaching fundamentals of electronics and Arduino microcontroller programming with C to preparatory and freshmen year students, organizing technical conferences, 2018 - 2019

Aachen, 12.03.2024
