Date of birth: 12.07.1997
Address: Roermonder Str. 73, 52072, Aachen, Germany

Education

RWTH Aachen University — Aachen, Germany
M.Sc. in Electrical and Computer Engineering; Systems & Automation; GPA: 2.2/1.0 — *2020 - 2023*

Focus on: AI, Robotics, Machine Learning, Deep Learning

Bilkent University — Ankara, Turkey
B.Sc. in Electrical and Electronics Engineering; GPA: 3.35/4.00 (= 1.7/1.0) — *2016 - 2020*

Focus on: Control Theory, Signal Processing, Machine Learning, Deep Learning

Galatasaray High School - Lycée de Galatasaray — Istanbul, Turkey
Science; GPA: 86.2/100.0 — *2011 - 2016*

Work Experience

Siemens AG — Munich, Germany
Machine Learning Engineering Intern and Working Student — *March 2022 – December 2022*

Artificial Intelligence on Wire Arc Additive Manufacturing (WAAMAI) data analytics team
Anomaly detection using various machine learning algorithms and frameworks

Fraunhofer IIS — Erlangen, Germany
Electrical Engineering Intern — *June 2019 – September 2019*

Redesign of PCB and microcontroller programming for IoT and Embedded Electronics team of FAU

TUBITAK Space Technologies Research Institute — Ankara, Turkey
Electrical Engineering Intern — *June 2018 – July 2018*

Satellite platform and payload electronic design

Research & Projects

Tracking and Evasion using Co-Training with Context Knowledge
Master's Thesis, Fraunhofer FKIE & RWTH Aachen University, 2023

UAV trajectory optimization for precise target tracking in urban environments using multiagent deep reinforcement learning and game-theoretic co-training approach, urban layouts by procedural map generation and urban map image processing with deep learning

Analysis and Modelling Road User Behaviour
Summer School, Chalmers University of Technology, 2022

Analyzing road crashes, road-user behavior, exploring driver models, metrics, challenges in real-traffic data analysis, and tools for active safety system evaluation to improve road safety

Mobile Robotics in Disaster Scenarios
Seminar Paper, Institute of Man-Machine Interaction at RWTH Aachen University, 2021

Review article for the Seminar: Current Concepts and Trends in Robotics and Simulation Science

Accompanying Humans and Achieving Designated Tasks with Autonomous Mobile Robots (TAG-A-LONG-BOT)
Senior Year Project, Bilkent University, 2020

Design and implementation of autonomous mobile land robots to track a designated moving human and avoid nearby obstacles by detecting and dodging them

Hand Gesture Controlled Remote Car
Course Project: Microprocessors, Bilkent University, 2018

4WD remote car controlled with the gesture of user's hand, communicating via Bluetooth,with microcontrollers NXP FRDM-KL25Z and Arduino Nano

Rotating Object Detector
Course Project: Introduction to Digital Design, Bilkent University, 2017

Mechanism with BASYS 3 FPGA board programmed with VHDL detecting objects within a range and alerting user

Awards & Scholarships

- DAAD Scholarship for Completing Studies for Students, DAAD and RWTH Aachen University, Germany, 2022
- Scholarship of the Turkish Prime Ministry, 2016 - 2020
- Ranked 46th in Nationwide University Entrance Exam (LYS) in Foreign Languages, Turkey, 2016

Skills

Programming:	Python, MATLAB & Simulink, Java, LaTeX, Assembly, VHDL
Technical:	Linux, Git, Docker, VS Code, EAGLE, MS Office
Libraries:	PyTorch, TensorFlow, Gym, Ray, SciPy, Scikit-Learn, Pillow
Languages:	English (Advanced), French (Advanced), German (Beginner), Turkish (Native)

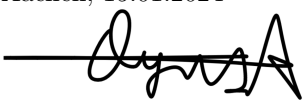
Extracurricular Activities

IEEE Bilkent Student Branch Vice Chair
Administrating and supervising technical activities, lectures, conferences and competitions, Ankara, 2019 - 2020

IEEE Bilkent Student Branch Robotics and Automation Society (RAS) Coordinator
Teaching fundamentals of electronics and Arduino microcontroller programming with C to preparatory and freshmen year students, organizing technical conferences, Ankara, 2018 - 2019

Examination Results

TOEFL iBT
Reading 28/30 - Listening 22/30 - Speaking 23/30 - Writing 24/30 – 97/120 overall, 2020

GRE General Test
Quantitative 166/170 - Verbal Reasoning 151/170 - Analytical Writing 4.0/6.0, 2020


Aachen, 15.01.2024
